DETAILED ACTION

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

1. Claim 20 is rejected under 35 U.S.C. 102(b) as being anticipated by Bixler (US 3,233,725).

Bixler discloses a display member having an outer annular panel **10** with opening **24**, a first mount flap **12**, a second mount flap **14**, and a panel connector **26** having a body portion (portion receiving article, see Figure 5) and a pair of tabs **32 & 34**. The first and second mounting flaps are capable of retaining elastic bands as claimed, and the tabs engage the mounting flaps as claimed.

Allowable Subject Matter

2. Claims 1-19 are allowed.
3. The following is an examiner's statement of reasons for allowance:

In the examiner's opinion, the prior art neither discloses, nor fairly suggests, the claimed panel link member arrangement in combination with the claimed connector in a packaging assembly for retaining elastic bands.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

4. As allowable subject matter has been indicated, applicant's reply must either comply with all formal requirements or specifically traverse each requirement not complied with. See 37 CFR 1.111(b) and MPEP § 707.07(a).

Conclusion

5. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
